Core Competencies

The Kaufman company specializes in quality wire rope assemblies, both galvanized and stainless, coated and bare, up to 1/8" diameter.

Your Partner in Manufacturing – If you need a build to print cable assembly or need help designing a new product, partnering with Kaufman unlocks almost 70 years of industry expertise ready to serve you.

Differentiators

Automation-driven efficiency – In house automation expertise sets us apart in the industry

- ✓ Reduces cost and lead time, supports competitive reshoring
- ✓ Reduces time to production for large orders by up to 75%
- ✓ Agile and strategic implementation of automation

Made-in-USA Reshoring – Eliminate tariffs, cut lead times, increase flexibility

“Perfect Part, on Time, Every Time” – Our company motto since founding

Integrated Workflow – All engineering, prototyping, manufacturing and testing in single facility

Scaling capacity – Plans to expand into larger diameter cable assemblies and increased automation in 2026

Past Performance

The Roy I Kaufman Company was founded in 1956 upon a strong commitment to the manufacture of a quality product and excellence in service to its customers. This commitment has enabled us to become a leading O.E.M supplier to both the automotive and appliance industries. The Kaufman family tradition of service to our customer remains strong.
